Subject: Redundant attribute description table
Posted by Felix Prüter   on Thu, 23 Jun 2016 13:34:21 GMT

Hello,
table 15 (ch 6.4.7) is redundant to table 13 (ch. 6.4.5).
In contrast LinearLocationCoordinate does not repeat the attribute table of its parent class
LinearLocation (table 16 in ch. 6.4.8).
Should be uniformly!?

Kind regards
Felix
