Dear Susanne and all "along-readers",

this 'post' is mainly to bring the discussion to an intermediate agreement. (It is always confusing to have 'open' tasks for years without knowing the opinion of the others.)

I appreciate the clearness for the next major release.

Just to keep up appearances: @Christian, I think it is still up to you as the infrastructure scheme coordinator either to agree to the unexpected usage of mileages or to clarify how it should be done instead.

Dirk.
