Subject: Crossings
Posted by claus.messauer on Wed, 31 Mar 2004 07:03:21 GMT

Hello,

I have a question concerning crossings. In the infrastructure scheme
version 0.93, crossings could be defined with the element junction
(enumeration type: simpleSwitch, simpleCrossing, simpleSwitchCrossing,
double switchCrossing). Where can I define crossings in the scheme 0.94?

I think there is a little mistake in the technical reference. Possible
types of a block are man (in the reference main), auto and LZB.

Best regards
Claus
