Hello,

some minutes ago I published a new but unfinieshed document containing
"Rules for Discussion at railML.org Discussion Forum". This is only
version 0.50.

What do you think which rules are neccessary too? Please, send me your
comments and ideas. Thank you.

Nils Poldrack

PS. Document is available at
 www.railml.org/documents/general/discussionrules_ger_v0.50.p df

Hello again,

today I published version 0.60 of the "Discussion Guidelines" in English
and German. If you are interested in the content, please use v0.60
instead of v0.50.

Link? www.railml.org/documents/general/discussionguidelines_ger_v0 .60.pdf or
 www.railml.org/documents/general/discussionguidelines_en_v0. 60.pdf.

Unfortunately I will not see you at Innotrans and railML.org conference.
I hope for good results, a release 1.00 of railML(R) partial scheme
"infrastructure" (or "line") and many successful talks.

Nils Poldrack
