Subject: Physical unit for attributes of type "tSpeed"

Hello,

in "rollingstockTypes.xsd" there're some attributes of type "tSpeed",
some are annotated with usage of km per hour.

In "physicalUnits.xsd" there's a basic type "tSpeedKmPerHour" for this.

If another type is needed (e.g. "tSpeedMPerSec"), it should be
implemented in "physicalUnits.xsd".

Best regards,
Susanne
