Dear all,

I put down some topics and conclusions we discussed during the last TT developer meeting, 2nd of June, 2016, at [1]. These minutes may be used as a base for the next meeting. Feel free to comment, if I got something wrong or missed important topics.

During the meeting, there was the wish to copy some conclusions on <timetable> 3.x into the open tickets. Please, feel free to do so from "8. Offene Tickets und Forumseinträge für TT 3.x".

Best regards,
Dirk.

Dear Dirk,

thank you for the detailed meeting minutes.

Best regards, Philip
