Dear All,

We would like to point to a discussion that has emerged in the railml.infrastructure forum under
http://www.railml.org/forum/index.php?t=msg&th=472&g oto=1427&#msg_1427
as it concerns both railML 3 and RTM.
We welcome your participation there. Please, do not continue the discussion here as to avoid a duplication of efforts.

Have a nice weekend and, where applicable, a nice holiday next week.
Yours, Mag. Ferri Leberl
