Subject: Change of Template:InheritIdName
Posted by Ferri Leberl on Mon, 09 Jul 2018 15:16:51 GMT

Dear All,

Mr Tanner suggested streamlining Template:InheritIdName that is included in bunches of Elements.

The old text can be seen under https://wiki.railml.org/index.php?title=Template:InheritIdNa me&oldid=6872#Examples

We have seized most parts of his text proposal and changed the template as can be seen under https://wiki.railml.org/index.php?title=Template:InheritIdNa me&oldid=8468

Please, let us know, whether this text is to your satisfaction respectively whether you require changes.

Thank you in advance for your answers.

Yours,
Ferri Leberl
