Dear Colleagues,

during our last meeting in Dresden we agreed to held the 9th conference in spring 2006 in Vienna (Austria) on invitation of SIEMENS Austria. We agreed to have this meeting on Friday, 24th of march 2006. Now the collaagues of Vienna University suggest to shift the date to the 7th of march due to a conference about engery effience in railways, which may be interesting for some RailML-participiants. What do you think about this change, are you interested? You will find some information (in German language only) about this Vienna University-conference at http://www.ove.at/akademie/pdf/2006-03-9_10ProgEntw.pdf and <http://www.ove.at/veranstaltungen/default.htm> (select the title "Energieeffizienz im Eisenbahnwesen").

I will be happy for quick answers by mail or by this group, because I will publish the minutes of the last meeting and the registration page for the next RailML-conference until the end of this week.

Best regards,

--
