Dear Dirk,

Thanks for your reply.

I do agree with you in the common approach as much as possible.
Thats why I'm very curious about which structures and elements the TT
group nominates for reuse / adopting in Infrastructure.

As Infrastructure changes with "projects" (in any kind), the
Infrastructure time dimension is concentrating around that topic.

If you can provide us with a model or structure of the TT scheme
regarding time elements, it would be very helpful for us. This gives us
the opportunity to compare both structures and see which elements could
be marked as common or reused.
It is a pity you can not join our meeting tomorrow but we appreciate
your help! Thanks!

Kind regards,
Gerben Schut
