Dear Friends of railML,

as announced in the last railML-meeting in Zürich, the coordination for
the infrastructure-schema will be shifted from Ulrich Linder to me.

Before Easter, we came together for a handover in Berlin so that I'm
perfectly prepared for the new job ;-)
I'm "on duty" from now on and hope to do my job as good as Ulrich did;
after all he's the father of V1.0!

You can contact me via this list, via mail, phone or fax. The detailed
contact data can be found in the signature.

I'm looking forward to the upcoming work and discussions and I hope that
we can improve the railML-schema together!

Best regards from Braunschweig,
Volker Knollmann
