Subject: [railML3]: openend and Macroscopic nodes Posted by Fabrizio Cosso on Wed, 29 Nov 2017 13:53:43 GMT View Forum Message <> Reply to Message

Dear Christian,

How <openEnd> and <macroscopicNode> elements present in 2.3 version can be modeled within railML3?

Generally speaking, what are the allowed values for trackBegin and trackEnd elements: are switches, crossings and bufferStops the only allowed values?

Thanks

BR

Fabrizio
