Subject: Re: [railML3.1|Simple Example] Errors
Posted by Felix Prüter on Fri, 17 Aug 2018 10:58:55 GMT

Dear Christian,
the example file I investigated is named railML_SimpleExample_railML3-1-beta_171211.xml.

But I agree that this does not fit to the model version I referenced in the opening post.

Seems that I mixed things up.

I will check the ostensible errors in the latest version (trunk of rev818).
