Subject: [railML 3.2] extending the <speedProfile> element
Posted by christian.rahmig on Fri, 01 Nov 2019 11:17:18 GMT

Dear all,

the railML use case working group "ETCS" that works on the "ETCS Track
Net" use case (see [1]) suggests to extend the current implementation of
<speedProfile> in railML 3.x in order to fulfill requirements resulting
from ETCS specification.

I summarized the proposed changes in Trac ticket #367 (see [2]).

Please have a look at the proposed changes and let us know your short or
long comments.
