Hi all,

the enum has been extended to allow for custom values. a preview of this change can be reviewed at <https://svn.railml.org/railML2/branches/trainUsage-customValues/>.

This branch has also been merged to the railML 2.5 development branch available here:  
<https://svn.railml.org/railML2/branches/railML2.5-dev/>

Best regards, Milan
