Subject: Re: [railML3]: Referencing between IS and IL
Posted by Jörg von Lingen on Mon, 25 May 2020 12:52:48 GMT

Hi,

in addition to the first post considering the actual list of functionalInfrastructure it might be questionable, to have
a counterpart in IL schema for really each of that elements. Thus only few out of the list may be really useful in IL part.

Regards,
Jörg von Lingen - Interlocking Coordinator
