Subject: Infrastructure V0.94 Release 10
Posted by Ulrich Linder on Tue, 23 Sep 2003 23:06:39 GMT

Today a new release of the infrastructure schema was finished. This is not a final V0.94 because some elements are missing anyway. I've integrated the recommendations of Matthias Hengartner for the visualisation but I've renamed some elements. I'll explain the changes on the 4. RailML conference today in Dresden. A documentation will be done in the next weeks.

Best regards from Berlin

Ulrich Linder
