Subject: Re: [railML2] Consistent definitions of formationTT@load @weight and @timetableLoad
Posted by Milan Wölke on Mon, 25 Jul 2022 09:45:45 GMT

Hi all,

regarding the wording I have to agree with Dirk. We shouldnt encourage encoding of intentionally wrong data in the documentation. The semantics you are trying to describe here (i.e. the rule of overwriting), however, I agree with.

Best regards, Milan
