Subject: timetable scheme 1.00 !!
Posted by Joachim.Rubröder on Fri, 20 Aug 2004 15:25:21 GMT

The timetable scheme 1.00 is ready to be officially released next week!

Some programs already started to implement interfaces on this version 1.00, so I'm sure it will soon become a common standard for railway timetables. Please report about your experience with this new version in the forum. The version 1.01 will be even better.

best regards,
Joachim Rubröder
