
Subject: request for "remarks"

Dear Joachim and all others,

in <timetable>...<trainPart> we have an attribute "remarks". We do use this attribute so far.

There is no such attribute at <timetable>...<train>. There is a "description" at <train> but from my side, "remarks" and "description" are by far not the same. So we do not want to use the "description" for the "remarks" of a train. (And, by the way, we also have "description" at <trainPart>.)

Are there any objections against adding an attribute "remarks" at <train> in 2.2? If not: Would you please add such an attribute?

Thank you!

Best regards,
Dirk.

Hello Dirk,

thanks for your "remarks" - no objections.

<http://trac.assembla.com/railML/ticket/177>

Kind Regards,
Joachim

Hi everyone,

The 2.2-ticket #177 has been implemented and the requested attribute will be available in the next revision 469.

Kind regards,

Joachim
